FULLSPACE...
the file with the movable aisle!

If you tried to store this much with ordinary files or shelves, you'd need 6 aisles and up to 4 times the floorspace. FULLSPACE does it with just one aisle that opens where you need it. Furthermore, when the aisle is opened, all the files on both sides are exposed, greatly reducing filing and retrieval time.

But there's more to FULLSPACE than space-saving and efficiency. High quality finishes in handsome wood grains or colored laminates create handsome furniture that complements any decor.
